Education

2020 - 2024

Bachelors in Computer Science (BSCS)

National University of Sciences & Technology,
NUST

CGPA: 3.76

2015-2020

Matric & Intermediate

PakTurk Maarif Int'l Schools & Colleges

2nd Position - Federal Board (Computer Group)

Skills

- AI/ML
- Javascript
- MERN
- Github
- MySQL
- Figma
- Canva
- Python
- Generative AI
- NLP
- Node.js
- Deep Learning
- Microsoft Azure

Extra Curricular

- Microsoft Learn Student Ambassador - Beta Level**
11/23 - 12/25
Microsoft
- Marketing Lead**
7/23 - 10/24 & 4/23 - 12/24
Notion Islamabad & MLSA Islamabad
- Deep Learning Fellow**
3/23 - 6/23
ByteWise Limited

Objective

Dedicated professional with a passion for Artificial Intelligence, Machine Learning, and Software Development, seeking opportunities to apply advanced data-driven solutions and drive innovation.

Professional Experience

Funavry Technologies

Associate Software Engineer - AI

Oct 2025 - Present

Systems Limited

Associate Consultant - AI

Sept 2024 - Dec 2024

Walee

Software Development Intern

June 2023 - June 2024

Projects & Achievements

○ AI Project | Funavry Technologies

Tamweel - Aljazeera Finance Chatbot

Designed and implemented an AI-augmented conversational flow that seamlessly integrates free-text user input with structured eligibility workflows, enabling dynamic intent handling without disrupting core business logic.

Enhanced user experience by introducing automatic language detection (English/Arabic) with per-turn response adaptation, improving accessibility and conversational naturalness.

○ AI Project | Funavry Technologies

Delmontie Chatbot

Built an AI-powered SOP chatbot using LangChain Self-Query Retrieval and SQL Agent, enabling natural-language queries across vectorized SOP documents and structured databases. Integrated metadata-aware filtering and query disambiguation to intelligently route user questions between RAG pipelines and SQL-based data retrieval.

○ Gen AI Project | Systems Limited

Geni - The Genius Behind Smart Hiring

Developed an AI-driven recruitment platform, automating JD creation, resume screening, candidate evaluation, and interview assessment using Azure OpenAI, Azure Web Services FastAPI, Blob Storage, and Streamlit.

○ Achieved GPA Based Financial Assistance in Semester 5, 6 and 7.

○ Final Year Project (FYP) shortlisted in the top 3 for the prestigious Rector's Gold Medal in Computer Science and selected for the 10 Pearls FYP Accelerator Program.

○ Final Year Project | NUST

Cre8iv - Social Media Content Recommendation System

One-stop platform for all social media operations for businesses and content creators (Target platform - Instagram + Facebook).

○ Artificial Intelligence | NUST

Social Media Brand Classifier

Collected Data from Instagram and performed keyword extraction on it in order to identify type of brand or page.

Certifications/Learn Paths

09/25	10/24
<u>Agentic AI with LangChain and LangGraph</u>	<u>Introduction to Prompt Engineering for Generative AI</u>
Coursera	LinkedIn Learning

09/24
<u>Generative AI with Large Language Models</u>
Coursera

04/23	12/23
<u>Start Your Career in AI, Data, and Machine Learning</u>	<u>Azure Data Fundamentals Challenge</u>
Microsoft	Microsoft

08/21
<u>Learn to Code in Python 3</u>
Udemy

08/21
<u>Machine Learning and Python</u>
National Productivity Organization
